

born smart

A unique Parent-Child Programme

Stimulate your child's growing brain and nurture and hone your parenting skills.
(Birth to 36 months)

What is *Born Smart Parent-Child Programme*?

Born Smart Parent-Child programme is a brain based parent-child programme. It has interactive 60-70 minutes sessions between parent/s & child. The Born Smart Learning Spa interactions are filled with carefully designed activities that nurture and build motor abilities, language, socio-emotional skills and cognitive skills in growing babies and toddlers.

90% of a child's brain is developed by the age of three. Children inherit genes from both parents and that decides 50% of their intelligence. The rest will be determined by the 'environment' you raise your child in. Preschool starts at the age of two to three years and by then the brain has gone through most of its intensive phase of development. So make the most of the crucial brain development period and help nurture your child's growing brain and hone your parenting skills too.

**Give your child the Born Smart advantage.
Join the Born Smart Parent-Child programme with your child.**

Timings and Sessions :

- Morning and Evening slots available.
- Each session is 60-70 minutes.
- There will be a Born Smart Mentor who will lead the session and guide you with the interactions.
- Each session will have a maximum of 10 parents with their child.
- Each session will have some individual parent - child activities and some group activities that all parents and children can do together.
